

Welcome to the World of MRC

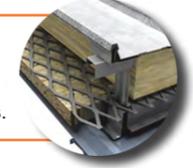

A world that illustrates the extent of the MRC Group's Total Building Envelope Solutions and how we perfectly integrate all the solutions, backed with an all encompassing single source warranty from design, supply, installation and through to maintenance for up to 20 years.

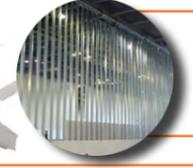

MRC Group's 'Cradle to Grave' Services

-  ENVELOPE INSPECTION & AUDITING OF WORKMANSHIP
-  EFFICIENT METAL ROOFING & CLADDING OVER-ROOFING REFINISHMENT
-  EFFICIENT ROOFING SYSTEMS SCREEN ENVELOPE TECHNOLOGIES
-  THERMAL WATERPROOFING & COATING SYSTEMS FOR ROOFS & GUTTERS
-  SPECIALIST PROTECTIVE COATINGS WEAR & ABRASION RESISTANT
-  METAL BUILT UP COMPOSITE & DRY LINES FIRE WALL PARTITION SYSTEMS
-  BUILDING ENVELOPE MAINTENANCE DEFECT DIAGNOSIS & REPAIR
-  DESIGN - SPECIALISATION - UP TO 20 YEAR SYSTEM GUARANTEE MATERIALS - INSTALLATION - MAINTENANCE

High Security Built up Metal Roof & Cladding Systems.
 'Cutting Edge' Metal Roofing & Cladding built up systems providing differing levels of security and protection whilst still achieving fire, thermal and acoustic project specific requirements.

Turn Key Industrial Solutions.
 Industrial Units - Structural Steel Frames, Metal Roofing & Cladding Systems and Specialist Fire Walls.

Refurbish Rusty Metal Fencing Systems.
 Specialist on-site electrostatic coating of existing fences, pipework and plant to extend the materials life for over 10 years even in aggressive environments.

Specialist Protective Coatings.
 Protective, Abrasion Resistant and Thermal Coatings which will extend the life and improve the efficiency of existing plant and structures.

'Cool Roof' Thermal Waterproofing Systems.
 The largest range in Africa of 'Cool Roof' Thermal Coatings for existing flat & pitched roofs which significantly reduces the temperature with your building.

Turn Key Cold Store Solutions.
 From design to completion - Structural Steel Frame, Metal Roofing & Specialist Cold Store panels with up to 4 hour fire resistance.

Revolutionary 'Cool' Thermal Coatings.
 'Cool' Waterproof Thermal coatings applied to various surfaces, including but not limited to steel, asbestos, bitumen materials that dramatically reduces the existing surface temperature.

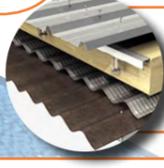

Educational Property Solutions.
 Thermal, acoustic and secure Building Envelope Solutions that maximise the learning experience for the pupil.

Specialist Rust Inhibitor Coatings.
 Specialist coating for rusty metal surfaces such as rail lines, wagons, cranes, bridges and gantries to significantly extend their life even in aggressive environments such as marine.

Over-roofing existing Asbestos Roof & Walls.
 Converting existing asbestos roof & wall systems to energy efficient systems without any stripping & disposing.

Specialist Surface Treatments.
 From basement coatings, Anti-skid car park treatments, to water resistant hydrophobic paint systems for roofs, walls and floors.

Renewable Green Technologies.
 From Green Roofs, Living Walls, Photovoltaic Systems, Rainwater Harvesting Systems and Wind Turbines all integrated into the design and installation of the Building Envelope Solution.

Innovative Rainscreen & Brise Soleil Solutions.
 Full range of energy efficient Cladding, Rainscreen and Solar Shade systems that reduce the temperature within the building and improve on aesthetics.

MRC Group's 'Cradle to Grave' Total Building Envelope Solutions with a Single Source all encompassing Warranty.
