EXCELLENCE IN OVER-ROOFING ASBESTOS

- Over-roofing creates an engineered structural cavity to improve energy efficiency.
- No requirement to remove the asbestos roof.
- No costly transportation & disposal of the asbestos roof.
- Continue to use the building while the over-roofing is installed.
- Convert the roof to an energy efficient roof by adding insulation.
- Range of metal roof sheet profiles and colours to improve aesthetics.

GUARANTEED TO SAVE YOU MONEY!
