EXCELLENCE IN SINGLE-PLY ROOF MEMBRANES

- Used throughout the world on flat concrete or steel roofs.
- Screw fixed or fully adhered installations.
- Hot air welded laps ensures the whole system has no exposed fixings.
- Range of R-Values can be achieved.
- Array of colours depending on quantity.
- Choice of thicknesses either 1.2 or 1.5mm thick.
- Ideal for new build or refurbishment.
- Large areas can be installed quickly.
- Penetrations, up-stands and joints hot air welded to the single-ply membrane roof.
- System warranty up to 20 years.

GUARANTEED TO SAVE YOU MONEY!
