

**Offices:**

Johannesburg  
Durban  
Cape Town

**EXCELLENCE IN  
HIGH HUMIDITY SOLUTIONS**

- Aluminium liner installed above the purlins with end and side lap sealed.
- Aluminium vapour control layer as a secondary defence to the ingress of humid air.
- Uncompressed mineral fibre insulation provides accurate R-Values.
- Breather membrane above AshGrid™ support system controls the flow of humid air.
- Zed support with perforations to allow the flow of air above the insulation.
- Aluminium 'secret fix' roof profile.

**GUARANTEED TO  
SAVE YOU MONEY!**
